To The Director

This piece is written in the Dorian mode using the rondo form. The main theme is melodically further developed at each reappearance. Musical interest is also enhanced with the alternation of melodic themes between the high and low strings. The melodies should be played with smooth connected bow strokes. The upper strings may need a little extra attention to insure the proper rhythmic accompaniment beginning at m. 19. During the last four measures, keep the dynamics building into the final fermata.
