## NOTES TO THE CONDUCTOR

This vocal solo ballad should be performed at the indicated tempo. You can vary the tempo slightly if desired but I suggest no slower than mm = 82.

The piano begins this chart by playing the legato eighth-note pattern with even eighths; then in measure 5, the ensemble builds to a full dynamic level and *ritardandos* through measure 6 to a slower tempo for the trumpet solo line in measure 7. In measure 8, decrease the volume slightly as notated, which will create a soft background texture for the rhythm section to support the vocalist. Although many standard dynamics are indicated in this piece, to be most effective the ensemble should exaggerate all dynamics. Try to convey the dynamics to the last row of the audience.

In measures 25 and 27 the brass figures are played with a slight swing feel ( $\text{♩} = \text{♩}^3\text{♩}$ ). The eighth notes are played evenly in measures 31 through 41; then the swing feel returns through to measure 64, with the exception of the brief alto sax solo in measures 58 and 59.

Measures 74 and 75 go back to a swing feel, and in measure 76 a *molto ritardando* brings the piece to a very slow tempo for the ending.

Please enjoy.
