

Thank you for your interest in our interactive whiteboard titles. We realize that purchasing this kind of software without seeing it in action is challenging. To that end, we've provided a sampling of screen images so that you can get a sense of what to expect from this product.

Each of our diverse interactive titles includes lots of opportunities for your students to interface with the IWB. Students may be asked to use digital flash cards, complete matching games, identify pitches, participate in interactive quizzes, play educational games with their classmates, brainstorm ideas, listen to music, and move or play along. And these are just a few of the many types of interactive activities that you will find!

Most of our IWB products include *Lesson Suggestions* for you to print and/or *Quick Tips* to guide you through the interactive unit. Many also feature clear objectives at the start of each unit and an easy-to-navigate template.

If you don't have an interactive whiteboard, that doesn't mean that you won't find interactive resources that will be useful to you. Some titles include a free PowerPoint version, and more of our newest resources are being developed using Adobe Flash, which enables them to run on any IWB or computer capable of playing Flash files. So, the time is right to get interactive!

If you would like to see some examples of interactive lessons in action, please visit <http://www.YouTube.com/TheLorenzCorporation> and look for our IWB featured playlist.

American Veterans

Lesson

- Who is a veteran?
- Why do we honor veterans?
- When is Veteran's Day?
- What is the difference between Veteran's Day and Memorial Day?
- What does it mean to be patriotic?
- How is patriotic music part of our nation's culture?

We honor veterans to thank them for their dedicated and loyal service to our country, and for sacrifices they have made to keep our country safe and protect our freedom.
